This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

VOL. X. WASHINGTON, D. C., JANUARY, 1894. No. 1.

Refused entry as second-class matter at the Post Office, Washington, D. C.

This Catalogue contains the titles of all the current official publications of the United States, including the reports and papers issued by Departments, Bureaus, Commissions, and other organizations of the Government; all the documents printed by order of Congress—that is to say, the Executive Documents, Reports of Committees, Miscellaneous Documents, Journals, and Debates of both Houses.

The arrangement of the titles is alphabetical, under authors' names as regards special treatises, and under topics as regards Congressional documents. At the same time the Departments, Bureaus, Commissions, etc., are credited with the works issued under their supervision. A valuable feature of the work consists in the separate entry of every paper or contribution contained in Reports, Bulletins, or other publications of the Government. A general Index at the end of the volume.

Subscription price $5.00 per annum.

NOTE: All correspondence relating to the Catalogue or to the publications of the United States Government should be addressed to the publishers,

W. H. LOWDERMILK & CO.,

VOL. X. WASHINGTON, D. C., FEBRUARY, 1894. No. 2.

Refused entry as second-class matter at the Post Office, Washington, D. C.

This Catalogue contains the titles of all the current official publications of the United States, including the reports and papers issued by Departments, Bureaus, Commissions, and other organizations of the Government; all the documents printed by order of Congress—that is to say, the Executive Documents, Reports of Committees, Miscellaneous Documents, Journals, and Debates of both Houses.

The arrangement of the titles is alphabetical, under authors' names as regards special treatises, and under topics as regards Congressional documents. At the same time the Departments, Bureaus, Commissions, etc., are credited with the works issued under their supervision. A valuable feature of the work consists in the separate entry of every paper or contribution contained in Reports, Bulletins, or other publications of the Government. A general Index at the end of the volume.

Subscription price $5.00 per annum.

NOTE: All correspondence relating to the Catalogue or to the publications of the United States Government should be addressed to the publishers,

W. H. LOWDERMILK & CO.,
1424–1426 F Street, Washington, D. C.

We would like to ask those subscribers who have not taken the early volumes of the catalogue to consider the desirability of securing the work from the beginning. Refused entry as second-class matter at the Post Office, Washington, D. C.

This Catalogue contains the titles of all the current official publications of the United States, including the reports and papers issued by Departments, Bureaus, Commissions, and other organizations of the Government; all the documents printed by order of Congress—that is to say, the Executive Documents, Reports of Committees, Miscellaneous Documents, Journals, and Debates of both Houses.

The arrangement of the titles is alphabetical, under authors' names as regards special treatises, and under topics as regards Congressional documents. At the same time the Departments, Bureaus, Commissions, etc., are credited with the works issued under their supervision. A valuable feature of the work consists in the separate entry of every paper or contribution contained in Reports, Bulletins, or other publications of the Government. A general Index at the end of the volume.

Subscription price $5.00 per annum.

NOTE: All correspondence relating to the Catalogue or to the publications of the United States Government should be addressed to the publishers,

Refused entry as second-class matter at the Post Office, Washington, D. C.

This Catalogue contains the titles of all the current official publications of the United States, including the reports and papers issued by Departments, Bureaus, Commissions, and other organizations of the Government; all the documents printed by order of Congress—that is to say, the Executive Documents, Reports of Committees, Miscellaneous Documents, Journals, and Debates of both Houses.

The arrangement of the titles is alphabetical, under authors' names as regards special treatises, and under topics as regards Congressional documents. At the same time the Departments, Bureaus, Commissions, etc., are credited with the works issued under their supervision. A valuable feature of the work consists in the separate entry of every paper or contribution contained in Reports, Bulletins, or other publications of the Government. A general Index at the end of the volume.

Subscription price $5.00 per annum.

NOTE: All correspondence relating to the Catalogue or to the publications of the United States Government should be addressed to the publishers,

Refused entry as second-class matter at the Post Office, Washington, D. C.

This Catalogue contains the titles of all the current official publications of the United States, including the reports and papers issued by Departments, Bureaus, Commissions, and other organizations of the Government; all the documents printed by order of Congress—that is to say, the Executive Documents, Reports of Committees, Miscellaneous Documents, Journals, and Debates of both Houses.

At the same time the Departments, Bureaus, Commissions, etc., are credited with the works issued under their supervision. A valuable feature of the work consists in the separate entry of every paper or contribution contained in Reports, Bulletins, or other publications of the Government. A general Index at the end of the volume.

The Revised Statutes of the District of Columbia, authorized by Congress several years ago, and recently approved by the Judges of the Court of Appeals, are now in the hands of the Public Printer, and in a few months will be ready for delivery. As the laws of the District have been in a chaotic condition this compilation will prove of inestimable value to every one having occasion to refer to them.

Refused entry as second-class matter at the Post Office, Washington, D. C.

This Catalogue contains the titles of all the current official publications of the United States, including the reports and papers issued by Departments, Bureaus, Commissions, and other organizations of the Government; all the documents printed by order of Congress—that is to say, the Executive Documents, Reports of Committees, Miscellaneous Documents, Journals, and Debates of both Houses.

The arrangement of the titles is alphabetical, under authors' names as regards special treatises, and under topics as regards Congressional documents. At the same time the Departments, Bureaus, Commissions, etc., are credited with the works issued under their supervision. A valuable feature of the work consists in the separate entry of every paper or contribution contained in Reports, Bulletins, or other publications of the Government. A general Index at the end of the volume.

VOL. X. WASHINGTON, D. C., SEPTEMBER, 1894. No. 9.

Refused entry as second-class matter at the Post Office, Washington, D. C.

This Catalogue contains the titles of all the current official publications of the United States, including the reports and papers issued by Departments, Bureaus, Commissions, and other organizations of the Government; all the documents printed by order of Congress—that is to say, the Executive Documents, Reports of Committees, Miscellaneous Documents, Journals, and Debates of both Houses.

The arrangement of the titles is alphabetical, under authors' names as regards special treatises, and under topics as regards Congressional documents. At the same time the Departments, Bureaus, Commissions, etc., are credited with the works issued under their supervision. A valuable feature of the work consists in the separate entry of every paper or contribution contained in Reports, Bulletins, or other publications of the Government. A general Index at the end of the volume.

Subscription price $5.00 per annum.

NOTE: All correspondence relating to the Catalogue or to the publications of the United States Government should be addressed to the publishers,

W. H. LOWDERMILK & CO.,
1424–1426 F Street, Washington, D. C.

The public printer has printed and bound the new compilation of the Statutes of the District of Columbia prepared by Mr. Abert, but, unfortunately, no provision has been made by Congress for the disposition of the books, and so they remain stored away, out of reach of the public.
